

FULL-STACK AI ENGINEER

Yegor Brusnyak

I ship **AI products end to end** — real-time voice agents, LLM-powered tools, and automation that touches real users and real data. I take an idea to a working, deployed system fast.

WHAT I DO

AI & VOICE

LLM APIs, RAG, embeddings, prompt workflows, AI agents, Whisper, STT/TTS, Retell, ElevenLabs

BACKEND

Python, FastAPI, REST APIs, WebSockets, PostgreSQL, Supabase, pgvector

FRONTEND

React, Next.js, TypeScript, JavaScript, Tailwind CSS

TOOLS & INFRA

Git, GitHub, Docker, Linux, pytest, Stripe, Vercel, API integrations

Recareo LIVE PRODUCT

[recareo.uk ↗](https://recareo.uk)

An AI voice-recall system for UK dental practices — it calls lapsed patients and books appointments automatically. Built the full voice-agent workflow, the lead-enrichment pipeline, and shipped the public site and paid offer end to end.

Voice AI

Retell / ElevenLabs

Next.js

Vercel

Stripe

AI Recruitment Copilot

[github ↗](#)

End-to-end AI tool for CV/JD parsing, candidate–job matching, and interview prep. Semantic search with RAG re-ranking, LLM fit scoring with match explanations, and LLM observability for output quality.

FastAPI

Next.js

pgvector

RAG

LLM APIs

AgentOps Control Room

[github ↗](#)

A control room for configurable AI outbound workflows across voice, SMS, and email — with a run engine, evaluation, versioning, regression tracking, and observability.

FastAPI

Next.js

Agent workflows

Eval / observability

Real-Time Speech Translation

[github ↗](#)

Bachelor thesis: live speech translation with voice cloning for online conferences. A speech pipeline with Whisper STT, Opus-MT translation, multi-TTS, and WebSockets, tuned for near-real-time output.

Whisper

Opus-MT

TTS

WebSockets

FastAPI

EXPERIENCE

Independent AI Engineer & Product Builder

2025 – Present · Remote

Voice agents, LLM applications, and workflow automation

- Design and ship AI products end to end — from concept to deployed, working system.
 - Deliver bespoke voice agents, document parsing, lead enrichment, and outbound workflow tools.
 - Stack: FastAPI, React/Next.js, LLM APIs, Retell/ElevenLabs voice, PostgreSQL, Stripe.
-

EDUCATION

Slovak University of Technology (FEI STU)

Expected 2027

B.Sc., Information & Communication Technologies — Computer Science

- Bachelor thesis: Real-Time Speech Translation During Online Conferences.
-

Open to remote contract and full-time AI engineering roles.
